UCR Is Attainable and Affordable
Your dream of a UC degree in computer science is just steps away!

Major Prep Courses Needed to Transfer to UCR
Complete these major prep courses at Chaffey College — in addition to the minimum grade point average and UC transfer requirements — to be admitted to UCR’s Marlan and Rosemary Bourns College of Engineering (BCOE):

Complete all courses:

- MATH 65A Calculus I (4.00)
- MATH 65B Calculus II (4.00)
- MATH 75 Calculus III (5.00)
- PHYS 45 Physics for Scientists and Engineers I (5.00)
- PHYS 46 Physics for Scientists and Engineers II (5.00)
- PHYS 47 Physics for Scientists and Engineers III (5.00)
- ENGIN 30 Engineering Application of Digital Computation (3.00)

HIGHLY RECOMMENDED
- MATH 85 Differential Equations (4.00)
- MATH 81 Linear Algebra (4.00)

And one (1) course from:

- BIOL 1 General Biology (4.00)
- BIOL 61 Introduction to Cell and Molecular Biology (5.00)

How to Get into Your Major
Students who complete the following are admitted to UCR:

Breadth Requirements – You are strongly encouraged to focus on preparatory course work (mathematics, science and technical work) for your desired major rather than completing the Intersegmental General Education Transfer Curriculum (IGETC). However, BCOE does accept completion of IGETC as satisfying the majority of breadth requirements. Additional breadth coursework may be required after enrollment at BCOE.

Prerequisites – Strong technical preparation is essential for success in the admissions process and, subsequently, in all coursework at BCOE. If you intend to transfer to an engineering major, you are expected to complete the equivalent of UCR coursework required in the first two years of the programs and apply for transfer starting your junior year. Visit ASSIST.org to see the prerequisites you must take for your intended major (and to make sure your classes will transfer).

Minimum GPA – Strive to surpass the 2.8 minimum GPA.
